INTRODUCTION

Kijang Econokids Competition is a national competition for primary schools students related to the financial mathematics syllabus that aims to challenge students' knowledge in basic financial literacy, mathematics, basic economics, and basic business management.

Kijang Econokids intends to spark a competitive nature among students by allowing them to polish and develop in financial mathematics. Kijang Econokids's questions have a unique way of highlighting basic economics and basic financial literacy concepts by relating them to the surrounding events, either local or global over time.

Kijang Econokids consists of multiple-choice questions (tests), requiring an application of economics and financial knowledge to find solutions on capital resources, the use of financial instruments and financial market analysis. The competition will take place on 5th April 2023.

ABOUT KIJANG ECONOKIDS COMPETITION
